

## Mathematics Merit Program Scheduled Sessions – Fall 2020

*The math course you will take this fall will depend on several factors including: your major, what math you took in high school (e.g. if you might earn AP credit), AND your ALEKS placement score. We offer Merit sections along with the courses in the main calculus sequence (Math 115, Math 220, Math 221, Math 231, Math 241).*

*If your major requires calculus and your ALEKS Placement Score is between 65% and 80%, you may be advised to take Math 115: Preparation for Calculus.*

**Math 115 Merit: Register for ANY lecture and ANY regular discussion; then, add ANY of the Merit discussions below (Merit discussion will be listed as Math 199)**
